Organic Cane Sugar

Organic cane, certified lot by lot.

Brazil is a leading origin for organic cane sugar, grown without synthetic fertilisers or pesticides and processed under organic certification. We supply crystal and golden formats for brands that need certified organic status, traceability and consistent quality. A full analytical specification is issued with each offer, by format.

PARAMETER	SPECIFICATION
Certification	Certified organic; certificate supplied for each lot
Formats	Crystal and golden (light brown)
GMO status	Non-GMO (prohibited under organic standards)
Solubility	100%, dry and free-flowing
Heavy metals	Within Codex Standard for Sugars (CXS 212-1999) limits
Microbiology	Food-grade limits, stated in each contract

20′ containers; volumes agreed per programme.

Load ports
Santos and Paranaguá; Northeast ports in season

Delivery terms
FOB, CFR or CIF (Incoterms 2020)

Inspection
Independent surveyor at the load port: quality, weight and condition

CERTIFICATIONS

Organic cane sugar is certified under schemes such as the EU organic regulation, USDA NOP or Brazil’s own organic seal (MAPA/Sisorg), depending on the destination market. Confirmed against the supplying mill’s own certificate for each lot.

> Indicative specification. The binding specification is the one written into each sales contract.
> This sheet is not an offer. Offers are valid only when issued in writing by an authorised signatory.
